

## Scrubber & Polishers - HFT 1530

Extra Large Brush

10Kg Weight

Simple to use Operator Handle

Heavy Duty Gear box

Hi-Lo Switch

When it comes to large areas of floor maintenance or restoration there is no substitute for both size and weight.

The HFT 1530 is a dual speed machine with 150 & 300 rpm respectively. The Hurricane series is now equipped as standard with performance enhancing "A.T.C.", Automatic Torque Control. A unique system that monitors operation and boosts torque, as required, to provide consistent performance under varying load conditions.

The HFT model is fitted with the Hurricane dual motor rated at 1000W/1250W providing optimised power options at the two different operating speeds.

The 'snap-on' 10 kg standard weight can be easily removed, and replaced as required to suit various applications.

Model No	Motor	Pad	Brush	Power	Speed	Vacuum	Range	Weight	Size
HFT 1530	1000W/1250W	400mm	450mm	230V AC50 Hz	150 rpm 300 rpm	Optional NDT 130	32m	40 kg	1250 x 580 x 460 mm
